

Hospital trips can come suddenly.

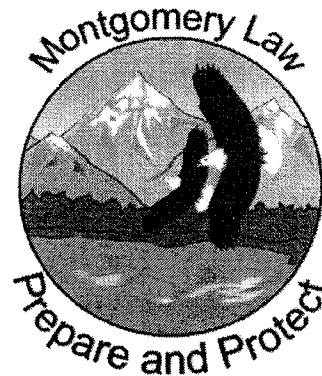

Whether your hospital stay is planned or unplanned, some items can come in handy.

This is a checklist of items you can have with you to make your stay a little easier.

Be sure to take your patience-you will need it.

If you would like to speak with us regarding this document, or other concerns, please call for an appointment.

We look forward to serving you.

Hospital Emergency Kit

Critical Items

- Identification (driver's license or ID card)
- Insurance Card(s)
- Advanced Medical Directive or Medical Power of Attorney
- Contact information for the agent named in your Advanced Medical Directive
- List of your current medications
- Glasses and hearing aids
- Cell phone and charger (this probably has telephone numbers you may need later) or address book
- Name and contact information for your primary physician

Comfort Items

- Pajamas/nightgown and Robe
- Change of underwear
- Comb or hairbrush
- Pen/pencil and notepad
- Book or other entertainment
- Toiletries (some are furnished by the hospital but you can bring any items not furnished or the brands that you prefer)

These items can be brought with you for a planned hospital stay. If your stay is unplanned, someone can always bring you these items later.

Helpful Items/Misc.

It is helpful to have another person present when your doctor makes his or her rounds. That person can help you ask questions and remember instructions or information provided during the doctor's visit.

Do not bring your wallet, credit cards, money or jewelry. You may be sharing your hospital room with someone else. Also, even if you do have a private room, there will be times your room may be unattended and it can be difficult to secure these items.
